HTP LIMITED 5 YEAR WARRANTY ON DRAIN BACK TANKS

For Residential and Commercial Use

HTP warrants to the original retailer purchaser that HTP will furnish a replacement Drain Back Tank in the event of tank leakage due to defects in material or workmanship; or repair same at our option, at no cost to the original retail purchaser except as set forth in this warranty. HTP SHALL NOT, UNDER ANY CIRCUMSTANCES, BE HELD LIABLE FOR INCIDENTAL, CONSEQUENTIAL OR SECONDARY DAMAGES AND EXPENSES RESULTING FROM ALLEGED DEFECTS UNDER THIS WARRANTY.

WARRANTY

1. Drain Back Tank assembly – consists of a stainless steel storage tank, and heat exchanger (when applicable), warranted for five (5) years.
2. Parts are warranted by original manufacturer for a period of one (1) year. This can consist of fittings, glass, pressure relief valve, and other such components that are not part of the tank assembly.

COVERAGE

- A. HTP warrants that it will repair or replace, at its option, any defective or malfunctioning component of the drain back tank with a component of equivalent size and current model. Replacement components will be warranted for ninety (90) days. It is expressly agreed between HTP and the original consumer purchaser that repair or replacement are the exclusive remedies of the original consumer purchaser.
- B. Through five years after the original date of installation, HTP will repair or replace, at its option, any drain back tank having a defect or malfunction that results in a water leak from the outside jacket or inner tank as a result of normal use and service. **The replacement drain back tank will be warranted for only the unexpired portion of the original warranty.** It is expressly agreed between HTP and the original consumer purchaser that repair or replacement are the exclusive remedies of the original consumer purchaser.
- C. If HTP is unable to repair or replace the drain back tank so as to conform to this warranty after a reasonable number of attempts, HTP will provide, at its option, a replacement product. These remedies are the consumer purchaser's exclusive remedies for breach of warranty.
- D. If government regulations, industry certification, or similar standards require the replacement drain back tank or part(s) to have features not found in the defective drain back tank or part(s), you will be charged for the difference in price represented by those required features. If you pay the price difference for those required features and/or to upgrade the size and/or other features available on a new replacement drain back tank or part(s), you will also receive a complete new limited warranty for that replacement drain back tank or part(s).
- E. If at the time of a request for service the original consumer purchaser cannot provide a copy of the original sales receipt or the warranty card registration, the warranty period for the drain back tank shall then be the date of manufacture of drain back tank and **NOT** the date of installation of the drain back tank.
- F. This warranty extends only to drain back tanks utilized in heating applications that have been properly installed by qualified professionals based upon manufacturer's installation instructions.

OWNER RESPONSIBILITIES

To avoid the exclusion list in this warranty, the owner or installer must:

1. Keep the drain back tank free of damaging scale deposits.
2. Keep the drain back tank in an area not prone to freezing.
3. **Make provisions so if the drain back tank or any component part or connection should leak, the resulting flow of water will not cause damage to the area in which it is installed.** A water heater temperature and pressure relief valve should be piped to the nearest drain in order to avoid damage in the event the valve is activated.
4. Periodic maintenance of glycol must be performed to assure pH levels do not exceed 10 or drop below 8. Failure to do so will cause damage to tank or components of the solar system.
5. Operate the drain back tank assembly at pressure below that shown on the rating plate on the pressure relief valve.

PROCEDURES FOR WARRANTY SERVICE REQUESTS

Any claim for warranty assistance must be made promptly. Determine if the drain back tank is "in-warranty" (that is, within the applicable warranty period) by reviewing a copy of the original sales receipt. You must present a copy of the original sales receipt for a warranty service request.

If your drain back tank is "in-warranty", contact the retailer from whom the tank was purchased (or the installer) for assistance. Be prepared to provide the retailer or installer with a copy of your original receipt, complete model and serial numbers, and the date of installation, in addition to explanation of your drain back tank problem.

Warranty coverage is subject to validation of "in-warranty" coverage by HTP claims department personnel. All alleged defective or malfunctioning parts must be returned to HTP via the **local distribution channels** where original purchase was made. **NOTE: Any parts or tanks returned to HTP for warranty analysis will become the property of HTP and will not be returned, even if credit is denied.**

If all warranty conditions are satisfied, HTP will provide replacement parts to the retailer.
