

**SuperStor Ultra Pool Heater
Limited Warranty**

Five Year Warranty to Assure Your Complete Satisfaction

HTP warrants the SuperStor Ultra Pool Heater to be free from defects in materials and workmanship according to the following terms, conditions, and time periods. UNLESS OTHERWISE NOTED THESE WARRANTIES COMMENCE ON THE DATE OF INSTALLATION. HTP SHALL NOT, UNDER ANY CIRCUMSTANCES, BE LIABLE FOR LABOR CHARGES, INCIDENTAL, CONSEQUENTIAL, OR SECONDARY DAMAGES AND EXPENSES RESULTING FROM ALLEGED DEFECTS UNDER THIS WARRANTY.

COVERAGE

Warranted Unit	Components	Warranty Period
Pool Heater Assembly	Stainless Steel Storage Tank, Insulation, and Outer Jacket	5 Years

A. HTP warrants that it will repair or replace, at its option, without charge, any defective pool heater found to have failed due to manufacturer's defect within five years of the installation date. HTP will NOT accept claims from the purchaser for labor costs incurred as a result of the repair, replacement, removal, or reinstallation of a pool heater. It is expressly agreed between HTP and the purchaser that repair or replacement are the exclusive remedies of the purchaser.

B. If HTP is unable to repair or replace a pool heater so as to conform to this warranty after a reasonable number of attempts, HTP will then provide, at its option, a replacement unit. These remedies are the purchaser's exclusive remedies for breach of warranty.

C. If at the time of a request for service the purchaser cannot provide a copy of the original sales receipt or the warranty card registration, the warranty period for the pool heater shall then be deemed to have commenced thirty (30) days after the date of manufacture of the pool heater and NOT the date of installation.

OWNER'S RESPONSIBILITIES

The owner or installer must:

1. Install, operate, and maintain the pool heater in accordance with the installation manual. Preventive maintenance can help to avoid any unnecessary breakdown of the pool heater and keep it operating at optimum efficiency.
2. Operate the storage assembly at pressure below that shown on the rating plate on the pressure relief valve.
3. Keep the storage tank free of damaging scale deposits.
4. Make provisions so if the storage tank or any component part or connection should leak, the resulting flow of water will not cause damage to the area in which it is installed. A water heater temperature and pressure relief valve should be piped to the nearest drain in order to avoid damage in the event the valve is activated.
5. Not use a salt chlorine generator with the pool heater. Salinated water will damage the tank.

WARRANTY EXCLUSIONS

HTP does not warrant:

1. All labor charges incurred by any person in connection with the examination or replacement of a pool heater claimed by the purchaser to be defective.
2. Any failed components not manufactured by HTP as part of the pool heater.
3. Pool heaters repaired or altered without prior written approval of HTP so as to affect adversely their reliability.
4. Any damages, defects or malfunctions resulting from improper maintenance, misuse, abuse, accident, negligence, freezing and the like.
5. Any damage or failure resulting from hard water scale buildup on the tank heat exchanger tubes.
6. Any damage or failure resulting from improper installation or failure to maintain and operate the pool heater in accordance with the printed instructions that accompany the unit.
7. Malfunctions resulting from, or repairs necessitated by, flood, fire, wind, or lightning, or uses of the pool heater for purposes other than that for which it was designed.
8. Condition resulting from exposure to foreign particles in the tank and exposure to chlorine content higher than 100 parts per million, or not maintaining a proper chemical balance in your pool and or spa (pH level between 7.2 and 7.8, total alkalinity [TA] between 80 and 120 ppm. Total dissolved solids [TDS] less than 2000.)
9. Any damages, malfunctions, or failures resulting from the use of dielectric unions.
10. Damages or failures caused by the use of a salt chlorine generator with the pool heater.
11. Any unit purchased from an unauthorized dealer or any online retailer.
12. Pool heaters installed outside the fifty states (and the District of Columbia) of the United States of America and Canada.

PROCEDURES FOR WARRANTY SERVICE REQUESTS

Any claim for warranty assistance must be made promptly. Determine if the pool heater is "in-warranty" (that is, within the applicable warranty period) by reviewing a copy of the original sales receipt. You must present a copy of the original sales receipt for a warranty service request.

If your pool heater is "in-warranty", contact the retailer from whom the pool heater was purchased (or the installer) for assistance. Be prepared to provide the retailer or installer with a copy of your original receipt, complete model and serial numbers, and the date of installation of your pool heater, in addition to explanation of your pool heater problem.

Warranty coverage is subject to validation of "in-warranty" coverage by HTP claims department personnel. All alleged defective or malfunctioning parts must be returned to HTP via the local distribution channels where original purchase was made. NOTE: Any parts or heaters returned to HTP for warranty analysis will become the property of HTP and will not be returned, even if credit is denied.

If all warranty conditions are satisfied, HTP will provide replacement parts to the retailer.
